

15 November 2008

Frigstad Offshore and Frigstad Engineering Participates in OSEA 2008

Frigstad Offshore and Frigstad Engineering will be participating in OSEA, the 17th International Oil & Gas Industry Exhibition & Conference in Singapore. The event will be held in Suntec Convention Centre from 2 to 5 December 2008, from 10.30am to 6pm daily.

With growing market interest in deepwater drilling rigs that meet efficiency and productivity needs, Frigstad Engineering will showcase the D90 semi-submersible drilling rig. The engineering team will be on site to provide detailed presentations through animations and sharing of the specifications and capacities of the different drilling rigs by Frigstad Engineering.

Providing solutions tailored to meet operational needs, Frigstad Offshore personnel will be at the booth to provide presentations and information on the project management and offshore rig management experience and services that the company offers.

Interested partners can locate the Frigstad Offshore and Frigstad Engineering booth at 6B3-7 in Hall 6 of Suntec Convention Centre, Singapore. The event will take place from 2 – 5 December 2008 from 10.30am to 6pm daily.

About Frigstad Offshore

Frigstad Offshore Pte Ltd is a fully integrated offshore drilling contractor with an experienced staff of over 80 industry professionals. Established in 1989 and headquartered in Singapore, Frigstad Offshore offers a complete range of management services for offshore drilling units to owners and investors internationally. The company has an established track record including commercial, operational and technical management of drill ships, jack-ups and semi-submersibles across international corporations and projects.

About Frigstad Engineering

Frigstad Engineering (Singapore) Pte Ltd was established in 1990 to provide multidiscipline engineering services for the offshore petroleum industry. Frigstad Engineering has an experienced team of drilling supervisors, mechanical engineers, naval architects and administrative personnel, and is based in Singapore.
